REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the present invention relates to a clock circuit used in DDR-DRAM device. The independent claim 1 recites a clock circuit having at least 2 connection, one connection for receiving a differential input clock pulses and/or receiving a single input clock pulse and another connection for receiving the single input clock pulse, wherein the clock circuit further comprises a first and a second pulse relay device, whereby the first pulse relay device is arranged for relaying differential input clock pulses, and the second pulse relay device for relaying a single input clock pulse. The PRIOR ART fails to disclose or suggest such clock circuit as one used in DDR-DRAM device as described in the independent claim 1, therefore, claim 1-20 are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vu A. Le whose telephone number is (571) 272-1871. The examiner can normally be reached on M-F (7:00-3:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Elms can be reached on (571) 272-1869. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
